Gladman Developments Ltd are attempting to gain outline planning permission to build an estate of 120 houses at the top of Briary Lane on the south-west edge of the town opposite Therfield Heath. The Heath is a special place, Common Land, Local Nature Reserve and a Site of Special Scientific Interest (SSSI).

Local residents have formed this campaign group to fight this unwanted and speculative proposal. The local infrastructure is incapable of supporting development in this particular area, especially the access roads through the centre of town. **Register your interest today!**
